

Career Scope

Vocational Assessment

Career Scope® enhances the career and educational planning process for those in education, workforce development, corrections, vocational rehabilitation, and related fields by measuring both interest and aptitude through valid and reliable assessment tasks. Career Scope identifies the user's attraction to careers as they relate to the U.S. Department of Labor's Interest Areas and measures aptitudes that are most critical for today's high growth and high replacement occupations through 2016. Career Scope's comprehensive reports provide career recommendations that align with the participant's interests and aptitudes.

Giles County Public Schools provides the Career Scope Assessment to all Freshman at Giles and Narrows High School. Testing is completed and reviewed with each student during the first six weeks of the school year.
